

# BAGGAGE ALLOWANCE

## EASYJET

Please make your party aware of the following:

### HAND LUGGAGE ALLOWANCE

#### Dimensions = 56cm x 45cm x 25cm

For reasons of safety as well as convenience, each passenger is only allowed to take one item of hand luggage into the cabin.

Cabin baggage dimensions must not exceed 56cm x 45cm x 25cm. No weight restriction applies within reasonable limits — i.e. a passenger must be able to place the piece of luggage safely in the overhead storage bins without assistance.

Please ensure you carry essential medications in your hand luggage.

### CHECKED BAGGAGE ALLOWANCE

#### Standard weight = under 20kg

Every item of checked-baggage will incur a fee. If you have paid to carry checked baggage or if it was included in your quote, you will be allowed one bag for a maximum weight of 20kg and total dimensions have to be under 275cm.

If your checked baggage weight exceeds this limit, excess weight charges will apply. These have to be paid at the airport.

The maximum acceptable weight for each single piece of checked-in hold baggage is 32kg. Baggage which exceeds this weight will not be accepted for carriage.

### DANGEROUS ARTICLES

Please check with the airline for information on the carriage of articles that are strictly forbidden,, whether as checked-in or carry-on baggage.

Please, please, please make sure your baggage is strong and fit for purpose! It may be handled as many as 15 times between check-in and Baggage Reclaim at your destination airport. Baggage must be strong in order to both protect your belongings and avoid your bag being damaged.
