September 2019

Dear Parent(s),

Re: AS and A Level Maths Calculators

A requirement of the mathematics AS level is to have a calculator with specific statistical functions; unfortunately many calculators used for GCSE such as the Casio fx-83GT Plus do not have these functions.

The recommended calculator is the Casio FX991EX which can be purchased through the school at the advantageous price of **£19**. This calculator comes with a protective hard case and has all the functions needed for Maths and Further Maths A Levels.

If you wish to purchase this calculator for your son/daughter via the school, please make your payment of £19 via WisePay, by the **deadline of Friday 20th September**; you will find this item under the "shop" category on your Wisepay homepage. After this deadline date it will not be possible to accept further orders. Should you encounter any difficulties in accessing your Wisepay account, or believe you are eligible for financial support, please contact Mrs Howley in the Finance Office at your earliest opportunity.

A calculator will be issued **during your son's/daughter's Maths lessons** as soon as possible after the payment deadline has passed.

Yours sincerely

N M Wood
Leader of Mathematics
