

Seneca Premium

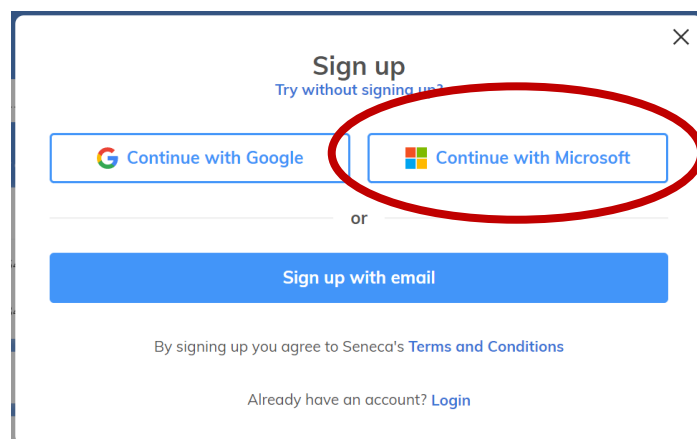

Login Instructions

This software is one of the most powerful assessment tools we have found, containing quizzes and rapid-fire testing on almost every facet of the GCSE curricula. Our previous students have always highly recommended this software so we have enabled access to the premium service for every child to help with their revision. Once a student has started using this software, they can then use it to go back after a certain period and revisit the content studied to ensure they remember it (retrieval practice). If they find they are struggling, they should revert to GCSEPod for further instructional help. In order to access Seneca Premium, follow the instructions below:

1. Visit www.senecalearning.com and hit 'Sign Up' in the top right corner

2. Click 'Login with Microsoft' and use your school email address and password

3. Start accessing the premium content!
4. For more information on Seneca: <https://www.youtube.com/watch?v=UJgSZ3FHygE>
