Dear Parent

You will be aware that the vision and aspiration that Southend High School for Boys currently has for our student body is driven by our 20/20 Framework outlined above. The 20/20 programme provides the moral code that, as a school, we seek to include in all aspects of everyday life here at SHSB. It is hoped and intended that these guiding principles will result in young adults ready to lead a happy and fulfilling life, contributing positively to society and able to be resilient in the face of the inevitable challenges ahead.

The extent to which these goals are achieved depends on every single interaction that takes place within the school community, whether this be in the classroom, corridors, a bus journey home or a residential school trip.

Consequently, the aim of the next Parent Engagement Group meeting will be to focus on the school, and specifically learning, environment. In particular, the intention is to seek the views of the parent body in the following key areas:

- General conduct within the school community/behaviour for learning
- Is the classroom environment as conducive to learning as it can be and are there obstacles to learning?
- How can we add to an already thriving school community?

Our parent engagement workshops have already played an important and positive role within the school community this year and the hope is that, faced in this workshop with possibly the most central of issues for the health of any school, the parent body will be able to offer key insights that will add positively to our community.

The evening will take place on **Wednesday 12th February 2020 from 6.30pm to 7.30pm**. This particular workshop is intended to be a conversation between parents and school so may I ask that on this occasion you do not bring your son or daughter. I hope that you will be able to attend this important workshop. Please indicate your attendance by clicking on the link below:
