Gingerbread House - Food Technology Contributions

Dear Parents and Carers,

Year 11 will be constructing Gingerbread House kits which consists of a biscuit frame, icing and decorations. We are producing these over one double lesson and this will enable us to develop new skills in the production of a highly decorative large biscuit construction. This is a fun lesson for the students and a well-earned break from working on their NEA's. We would like to recognise and reward all their hard work so far this year. The students will bring their ginger bread house home on a cake board and in a presentation box.

To make this as simple and affordable as possible, I have bulk bought all of the ingredients and necessary equipment. A voluntary contribution of £5 towards the cost would be greatly appreciated.

I would like to take this opportunity to thank you for your ongoing support while your son continues his course. If you have any questions, please don't hesitate to contact me.

Please make all donations via wise pay Under shop > miscellaneous.

Yours sincerely

Mrs E Tyler
Food Science Teacher
