March 2026

Dear Parent(s) and Guardians,

RE: Continued Support in A Level Chemistry

We write to update you on your son or daughter's progress in Chemistry. We are pleased to report that sufficient improvement has been made, with a stronger grasp demonstrated of the subject's key concepts and skills.

Given this progress, we are happy for students to continue their independent work and studies without the need for close monitoring. We encourage them to maintain their commitment to regular review, practise, and effective use of available resources to ensure continued success in their A Level studies.

While we will no longer be implementing the additional support measures outlined in our previous letter, the Chemistry department remains available to assist students should they require further guidance, including at our weekly support sessions held on Tuesday lunchtimes in W11. We will continue to monitor progress as part of our usual academic tracking and both the grades and written teacher-feedback on your child's progress in Chemistry will be provided in the upcoming report issued on 25 March.

We would also like to take this opportunity to remind you that the *Mid-Course Assessments* will be held in April, as outlined in the assessment schedule.

Thank you for your ongoing support. If you have any questions or concerns, please do not hesitate to contact us via School Enquiries (enquiries@shsb.org.uk).

Yours sincerely,

Mr T Bennett
Leader of Chemistry

Mr D Hill
Leader of Science
