July 2026

Dear Parents,

We are delighted to announce the Bee Society's final honey sale of 2026.

After another successful beekeeping season, our students have worked incredibly hard caring for the school hives, particularly during the recent spell of very hot weather. They will soon be extracting, spinning and jarring this year's honey, and we are pleased to say that the quality looks excellent. This year's crop is a beautiful amber, runny honey with a distinctive, rich flavour that reflects the variety of local flowers visited by our bees.

This is your last opportunity to purchase SHSB Bee Society honey this year. As always, this sale helps support the Bee Society by funding equipment, hive maintenance and future opportunities for our young beekeepers.

The students have shown real commitment throughout the season, learning practical beekeeping skills while caring for the colonies and preparing the honey for sale. Once the extracting and jarring is complete, we will be celebrating their hard work with a well-earned Bee Society lunch together.

Thank you for your continued support of the Bee Society. We hope you enjoy this year's honey as much as the students have enjoyed producing it.

Honey Details:

- Price: £15 per jar – please make your payment via ParentPay
- Order deadline: 10 July
- Collection: Honey will be distributed to students on 17 July.

Thank you once again for supporting our students and the Bee Society.

Kind regards,

Richard Brooks
Bee Society Coordinator
Southend High School for Boys
