Teacher of Chemistry Required for September 2019

We are a hugely oversubscribed school, complimented by our latest OFSTED inspection on many aspects including our forward vision and academic excellence: *"attitudes to learning and relationships between staff and students are exemplary"*.

We are seeking to appoint an enthusiastic and motivated Teacher of Chemistry for September 2019. The science department is a friendly and supportive department and has a thriving programme of extra-curricular activities.

Teaching from KS3 – KS5 will be required. This post would suit either an experience teacher or a new entrant to the profession, for whom the school has an excellent record of support and development.

You will need to be hard-working, organised, and able to inspire others as well as enjoying working collaboratively with colleagues to help our students achieve excellent results.

A relocation support scheme may be available and the successful applicant will be subject to an enhanced DBS check.

Full details of the role and department are on our website as well as our application form - www.shsb.org.uk

Closing date: Midday on Friday 24th May (although we reserve the right to interview and appoint prior to the closing date should there be a good response)
